**Case No: 2:22-cv-02147-DAD-AC**

**DECLARATION OF DEBBIE  
HOBEL IN SUPPORT  
PLAINTIFFS' MOTION FOR  
PRELIMINARY INJUNCTION**

Date: January 17, 2023

Time: 1:30 PM

Courtroom: 5, 14<sup>th</sup> floor (via Zoom)

Judge: Hon: Dale A. Drozd

Action Commenced: December 1, 2022

1 I, Debbie Hobel, declare as follows:

2       **1.** My family currently lives in Ventura County. My son M.H. is a 16-year-old who  
3 attends school in Oxnard Union High School District. He is in his junior year.

4       **2.** We are former patients of Dr. Hoang and would gladly make an appointment to  
5 see her again to discuss Covid-19. We currently see an Osteopath in our County who is very  
6 conventional in his advice and recommendations – he is recommending the Covid-19 boosters,  
7 but we want a second opinion from Dr. Hoang. We like our local osteopath a lot (he has a  
8 good rapport with my son), but we do want a second opinion.

9       **3.** In our family we are not against Covid-19 vaccination. Each member of our  
10 family received Covid-19 vaccinations last year. We are pro informed consent, and I am a  
11 health freedom member of the group Physicians for Informed Consent. M.H. received two  
12 doses of the Pfizer vaccine. However, after my husband received a Covid-19 vaccine in  
13 October 2021, he immediately suffered a sore arm, which then became inflammation  
14 throughout his arm and hand. He is a musician so he had to stop playing piano professionally  
15 for a while because the adverse reaction has been so bad. He needs to wear splints on his  
16 fingers every day. It has been over one year and his fingers still do not function properly. He  
17 can now play some piano again but with diminished capacity. It's been really difficult for us.

18       **4.** M.H. has had intermittent breathing problems that have been difficult to  
19 diagnose and treat. Our osteopath sent us to a specialist (pediatric pulmonologist), who  
20 suggested it could be stress-related but he didn't know.

21       **5.** I am filing this declaration because I want Dr. Hoang to be free to speak  
22 candidly with me about her recommendations and how she may see things differently than our  
23 local osteopath. In the past, we found Dr. Hoang to be knowledgeable and we trust her. At this  
24 point the only thing that stands in the way for us is AB 2098. We're anticipating multiple  
25 appointments with Dr. Hoang and our local osteopath and we don't want AB 2098 interfering  
26 with our first opinion (local osteopath) or second opinion (Dr. Hoang).

27       **6.** I think our local osteopath is only telling me the CDC's recommendations, so I  
28 feel his advice is incomplete for the kind of informed consent that I'm looking for. I fear he

1 might just tell us to take the boosters for fear of board investigation. Either way, it seems like  
2 AB 2098 is already stressing out my relationships with doctors. For example, how can I be  
3 sure that our osteopath will put my family's health interests above his personal interests so he  
4 can stay out of trouble with the board? It's not an unrealistic concern on his part. I sympathize  
5 with his situation, and Dr. Hoang's.

6       7. My plan at this point is just to wait to make future medical appointments on  
7 Covid-19 vaccines with our osteopath and Dr. Hoang until I know whether AB 2098 is  
8 considered unconstitutional in court. If the law is constitutional, I figure there is really no point  
9 in me going to Dr. Hoang for a second opinion because I would just get her in trouble asking  
10 her for candid advice. I suppose one option would be to travel out of State for a second  
11 opinion, but that just seems outrageous. I am hoping a court can fix this for families like mine.

12       I declare under penalty of perjury that the above information is true and correct.

13 Signed this 1<sup>st</sup> day of December 2022, in Oxnard, California.
